SOFTWARE ENGINEER

Software Engineer experienced in Ruby and JavaScript frameworks. Studied Logistics Management and Transportation which taught me how to stay organized and to thrive in a fast-paced team environment while using my own initiative. I am looking to use my skills as a Software Engineer to build next-generation technologies and high-quality products that can improve the way people interact with information and one another around the globe. I am passionate and love to create software that delivers a deep and meaningful impact on people's lives.

TECHNICAL SKILLS

- **Proficient:** Ruby on Rails, JavaScript, React, Redux, PostgreSQL, Git, GitHub, Restful API, Stripe API, HTML, CSS, Semantic UI
- **Knowledgeable:** SQLite, Docker, Datadog Agent, Heroku, Wix

TECHNICAL PROJECTS

Planet Express - [Front End](#) | [Back End](#) | [Demo](#)

A traveling app that allows people to fly to other planets - more than 10 flights per planet with real-time traveling data.

- Utilized JavaScript to create a responsive app in the front end.
- Initiated a Ruby on Rails API using real time traveling data - PostgreSQL database to collect information.
- Implemented vanilla CSS for design and functionality.

Travel Advisor - [Front End](#) | [Back End](#) | [Demo](#) | [Website](#)

A rating traveling app that offers a large selection of destinations throughout the world.

- Utilized JWT, localStorage and Bcrypt(password salting) to authenticate/authorize users actions on the website.
- Used React library to create a responsive Single-Page application.
- Styled user interface using Semantic UI and vanilla CSS.

Watif - [Front End](#) | [Back End](#) | [Demo](#)

An e-marketplace allowing creativity and uniqueness in products from handmade to vintage items and craft supplies.

- Modeled custom database schema and REST API with PostgreSQL, and Ruby on Rails.
- Communicated with Etsy API endpoints to render real-time products and save data with the use of RestClient.
- Engineered user interface using React framework, Redux.
- Design user interface using vanilla CSS and Semantic UI.

EXPERIENCE

Dairy Buyer

06/2019 - 11/2019

Whole Foods Market, Brooklyn, NY

- Responsible for ordering products and maintaining adequate inventory.
- Managed a team of 1+ employees on a daily basis.
- Helped increase the dairy department sales while maintaining excellent relationships with vendors.
- Audit product inventory on a consistent basis and resolved rotation issues as they arose.

Cashier

08/2018 - 06/2019

Whole Foods Market, Brooklyn, NY

- Responsible for ringing up customers in a timely manner while providing a high-level customer service.
- Significantly decreased customer waiting time.
- Handled difficult customer service situations with a great attitude.
