ABOUT ME

Aspiring software engineer experienced in Ruby and JavaScript frameworks. Studied Logistics Management and Transportation which taught me how to stay organized and to deliver products in a timely manner. Living in France and the U.S taught me how to adapt quickly and prepared me to succeed in an ever-changing environment. I am passionate and love to create software that delivers a deep and meaningful impact on people's lives.

PROJECTS

Watif - An e-marketplace allowing creativity and uniqueness in products from handmade to vintage items and craft supplies.
